"I can't thank you enough! Since Jaden came to you to improve her shooting, her ball rotation is great! She is more confident in her shooting as well! The last couple of games after her session with you, she had shot the ball 75% behind the 3 point! Thank you for your patience with her and your knowledge of the game!!"

- Cynthia Cooper, Girls Head Basketball Coach, Parkview HS

After shooting with you for a month I realized how underprepared I was. You not only helped my mechanics but you held me accountable and applied pressure which simulated game like situations. Not only did you help my game you showed me how much better you can be by mastering the basics. Love you coach
